

High-Performance Isolator Gloves for Critical Environments

Durability

Safety

Customization

Hypalon and EPDM isolator gloves engineered for maximum protection in sterile and hazardous environments. Designed for pharmaceutical, biotech, and laboratory applications where safety and reliability are non-negotiable.

Product Features

- ▶ **MOC:** EPDM - Excellent resistance to chemicals and sterilization
 - Sterilisation capacity: 60+ autoclave cycles
- ▶ **MOC:** Hypalon (CSM) - Heavy-duty gloves with superior durability
 - Sterilisation capacity: 30+ autoclave cycles
- ▶ Sizes & appearance customizable - tailored to user needs
- ▶ Chemical, ozone, and abrasion resistance
- ▶ Designed for isolators & glove boxes
- ▶ Highly durable & long service life

Applications

- ▶ Pharmaceutical Manufacturing
- ▶ Biotechnology Labs
- ▶ Cleanrooms & Controlled Environments
- ▶ Hazardous Material Handling
